

Note from the Owners

3350 Port Washington Road

There is an old saying: "If you want to make God laugh, tell Him your plans."

This was going to be our last home. It had just about everything, or at least the potential for everything, that we wanted. Tons of space and absolute privacy. A beautiful spacious home with character and the primary on the main floor. A huge deck with a million dollar view. This was going to be the one. Then life got in the way as it tends to do.

We purchased our dream in July 2025 and began planning and started to make it our home. We closed in a covered porch and extended the dining area. We replaced the old stove with a dual-fuel Bosch range. We replaced the 15 year-old hot water heater. We had the heat pump and the septic system serviced. We tested out the 10 kW generator. Then my health took a serious turn. Life does get in the way sometimes.

So we had to make the difficult decision to sell this beautiful dream before we even got to move in. Someone else is going to get to live this dream. It is a very special place. Nancy and I wish you all the best.

-Nancy and Toby Boydell
