

## **A Note from the Owners of 38214 Schooner Way, Pender Island, BC**

### **Pender Experience**

After looking all over the Gulf Islands on the Real Estate app, we came to Pender on a sunny summer day, to see this quirky half-painted little cottage. We fell in love! Went for lunch at Hope Bay, looking out at the gorgeous view...left on the afternoon ferry and called the Realtor to make an offer! We have done extensive renovations (the studio was just a shell), built accessory shed and sleeping cabin/office, wood shed, kids playhouse as our grandkids arrived. The island was our respite from the big city, and a safe place during the pandemic. We are now settled in Sidney and it's so quiet and lovely and time to downsize to just one property as we head into retirement. Pender is such a magical, peaceful place, all you hear are the eagles! The deer come to visit and wonder where their apples are;) A great place to rest and read, hang in a hammock, enjoy the walks and hikes and beaches.
