What inspires you most about working in Real Estate?
I'm inspired by Real Estate on the Gulf Islands. This has been my home 15 years and to be engaged with people just discovering the islands is a privilege. There are a lot of considerations at play on the islands where real estate is concerned such as the environment, development, and the community. I want to help people form solid decisions for themselves, for their lifestyle and for the islands.

Welcome to the Dockside Team Jaime!
